## MEASURERS DECLARATION

---

I hereby declare, that as a certified and officially recognized measurer of the International Melges 32 Class Association (IM32CA), I have read and fully understand the Equipment Rules of Sailing (ERS), the IMM (International Measurers Manual) and the Melges 32 Class Rules.

I agree to certify each sail with my signature, a reference number and date of certification in the position as indicated in the Melges 32 Class Rules.

I understand that the usual ORC label glued to the head of the sail with standard numbers as used with the ORC system is not acceptable as certification. If I choose to use the ORC label as support for certification (in cases where sails have a silicon treatment), it must be sewn in the position as indicated in the Melges 32 Class Rules.
